Acknowledgement

Without acknowledging the greatest of persons behind me, this work would not gain importance of its worth. So to start with I'd like to thank the bountiful and liberal *Almighty* who made me so that I could reach here where I am today, for giving me strength to upturn every stone laid down in my path.

I thank *Dr. Arindam Sarkar, Dean, Prof & HOD, JCD, Dental College, Sirsa, Haryana*; he has always given me a reason to bow down and honour him with respect. His every word dwelled in me heaps of respect and admiration for him.

I would like to pay my gratitude to, *Director General JCD Vidyapeeth, Sirsa, Dr. Jai Prakash*, for his valuable support, concern, help and above all confidence in me. His constant words of inspiration made me to think beyond my skills.

I express my deep sense of gratitude to, *Dr. Sudhanshu Gupta*, Registrar JCD, Vidyapeeth, Sirsa for his valuable suggestions and encouragement.

This would not have been possible without the due support, encouragement, motivation, and boosting of my guide *Dr. Deepak Bhargava*, Professor and Head, Department of Oral and Maxillofacial Pathology, School of Dental Sciences, Greater Noida. He has always been a constant example of what is called the incredible.

My intense gratitude and sincere thanks to *Dr. Deepak Goyal, Prof & HOD, Department of Oral Pathology, JCD, Dental College, Sirsa and my dear friend Dr. Ruby*, Reader for their constant support and inspiration.

From the core of my heart I'd like to thank My *Husband (Dr. Tarun Kumar Gupta)* Assistant Professor, Department of Veterinary Medicine, LUVAS, Hisar and kids (*Nevita & Daivik*), for their love and support and giving me the spirit to develop my skills. They have been the backbone and allowed me to explore the world and pursue my dreams.

It would be very unfair on my part if I don't mention the contribution of my *Parents my Mother (Sunita Gupta)* whose positiveness inspired me to achieve my goals, my *Father (Dr. Narinder Vaid)* whose guidance always helped me

to overcome the challenges of life, ***my Chachaji (Dr. Sabhyata Gupta) and Chachiji (Dr. Ashok Vaid)*** who are role models to me, my in-laws who always have led me the right way and gave me enough courage to stroll down every road and discover triumph and my brother (Dr. Nikhil Vaid) and sister in law (Dr. Shallu Gupta) who have been a true support for me in all my robust times.

I know I'll never be able to pay off my debts what I owe to everyone but today I literally bend over to pay my gratitude to everyone.

Contents

1. Cysts	1
i. Introduction	1
ii. History	1
iii. Classification	2
iv. Pathogenesis of Odontogenic Cysts	5
v. Epithelium of Origin Odontogenic Keratocyst	6
vi. Initiation of Epithelial Proliferation and Cyst Formation	7
vii. Cyst Growth and Enlargement	9
